Tiffany Powers co-leads Alston & Bird's Insurance Litigation & Regulation Team and is a legal strategist instrumental in helping clients plan early exit strategies and achieve resolution of business-critical disputes. For over twenty years, Tiffany has concentrated her practice on complex litigation matters, with a particular focus on insurance and class action litigation. Her practice is national in scope, encompassing state and federal court litigation at both the trial and appellate levels.

Tiffany has extensive experience defending class actions. Serving as lead or co-lead counsel, she has obtained dismissal or defeated class certification in hostile, notoriously plaintiff-friendly jurisdictions. In the life insurance realm, Tiffany has been in the trenches defending the industry against COI class action litigation across the country. Tiffany also regularly represents clients in high-profile coverage and bad faith disputes, including matters involving COVID-19, 9/11/2001, and other significant catastrophic and weather events. Her regulatory experience includes market conduct examinations, attorney general investigations and other enforcement actions. She has been engaged by insurance carriers and large corporate policyholders for counseling and strategic planning in the aftermath of the bid rigging and finite reinsurance investigations, as well as for catastrophe response efforts.

In law school, Tiffany served on the *Georgia Law Review*. She received her J.D., magna cum laude, from the University of Georgia in 1999.
