---

Tyler Espy is a member of Alston & Bird's Intellectual Property Patent Prosecution Group. Tyler previously worked as a software developer for an international, cloud-based construction software company. He has extensive experience drafting and prosecuting patent applications, as well as contesting administrative proceedings before the U.S. Patent and Trademark Office.

Tyler received his J.D. from Emory University after receiving a B.S. in software engineering from Auburn University.

Representative Experience

- Counsel for a multinational health care company that specializes in software solutions to solve worldwide health care problems with inventions related to machine learning, fintech, distribution, automation, and data analytics.
- Counsel to multiple startups in the fintech, machine learning, and medicinal spaces.
- Counsel to a world leader in space, radar, and electronic technologies. Providing service in harvesting, drafting, and prosecuting domestic patent applications related to various electronic technologies.
- Counsel to a global leader in semiconductor fabrication and development by drafting and prosecuting international patent applications related to various semiconductor technologies.
- Counsel to a multinational mass media and entertainment conglomerate by positioning their patent portfolio for monetization while harvesting, drafting, and prosecuting applications directed to various digital and streaming technologies.

Education

- Emory University (J.D., 2019)
- Auburn University (B.S., 2016)
